PRAYER

The following prayer was offered by the Chaplain, Rev. Father Luke Powleson:

Support us, O Lord, this day under all the troubles and contradictions which Thou ordainest we must suffer. May they not weaken our charity for our fellow man nor our fidelity towards Thee. Grant, that difficulties far from separating us from Thee, may unite us more closely to Thee, and through them may we experience a continual and pressing need of Thy powerful assistance. Wherefore, mistrusting ourselves, and relying upon Thee, we stretch forth our hands to Thee and confidently hope Thou will support us in the work before us. Grant that animated by Thy spirit, living in and by Thee, and, as it were, clothed in Thy justice, we may become more Thine than ourselves. Mayest Thou live in us, and may we, by a happy transmutation, yield ourselves entirely to Thee, acting only from the impulse of Thy love and for the good of our citizens. Amen.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 7, 1957

To the Honorable Members of the Senate
State of California
Sacramento, California

GREETINGS: I am returning herewith, without my signature, Senate Bill No. 365, entitled: "An act to provide for the conveyance of certain state property to the Tuolumne Recreation Park and Parkway District."

My objections to this bill are as follows:

This bill directs the Director of the Department of Fish and Game to convey, without cost, to the Tuolumne Recreation Park and Parkway District, the property known as the Basin Creek Fish Hatchery. This fish hatchery was purchased with funds raised through the sale of fishing licenses. It is the opinion of the Attorney General that the conveyance of this fish hatchery to a local district would be a diversion of money committed by Section 25% of Article IV of the Constitution to Fish and Game purposes, and that therefore the transfer of the property would not be constitutional. I am therefore returning Senate Bill 365, without my signature, and with this statement of my objections thereto.

In my opinion the purposes of this bill can be accomplished by a lease of the property, and such a lease is being prepared.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Message read, and ordered printed in the Journal.
Senate Bill No. 365 ordered to the unfinished business file.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 8, 1957

To the Honorable Members of the Senate
State of California
Sacramento, California

GENTLEMEN: I am returning herewith, without my signature, Senate Bill No. 558, entitled: "An act to amend Sections 20100, 20100.1 and 20101 of the Government Code, relating to the State Employees' Retirement System in respect to composition, appointment and election of members of the board of administration."

My objections to this bill are as follows:

This bill would add a person who is retired as a member of the Board of Administration of the State Retirement System. The discretion of this board is limited to matters concerned with state employees generally and not with the status or rights of retired employees, since all rights of a person who retires become vested as of the time of retirement and are not, thereafter, in any manner, subject to alteration or change by the board. This bill has been protested vigorously by the State Employees Association, and has been unanimously opposed by the Board of Administration of the State Employees' Retirement System. In my judgment the best interests of employees generally is served by leaving the board as it is now

constituted. I am therefore returning Senate Bill No. 558, without my signature, and with this statement of my objections thereto.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Message read, and ordered printed in the Journal.

Senate Bill No. 558 ordered to the unfinished business file.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 8, 1957

To the Honorable Members of the Senate
State of California
Sacramento, California

GENTLEMEN: I am returning herewith, without my signature, Senate Bill No. 1739, entitled: "An act to amend Section 53205 of the Government Code, relating to charges against funds of school districts, to permit payment of premiums on group insurance for school district, county and other local agency employees."

My objections to this bill are as follows:

The Legislature passed and sent to me Assembly Bill No. 2742 and Senate Bill No. 1739 which both relate to the providing of hospital, medical, surgical, disability and related benefits by local agencies. The two bills cover the same field, and it became necessary for me to determine which bill to sign and which to veto. The sponsors of the bills have advised me that Assembly Bill No. 2742 has best met the problems which this legislation seeks to meet, and I have, therefore, signed Assembly Bill No. 2742 and am returning Senate Bill No. 1739, without my signature, and with this statement of my objections thereto.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Message read, and ordered printed in the Journal.

SAN FRANCISCO, June 5, 1957

Hon. Harold J. Powers, President of the Senate
State Capitol, Sacramento, California

DEAR SIR: The Senate Interim Committee on San Francisco Bay Area Metropolitan Rapid Transit Problems respectfully submits this report of a two-year study of rapid transit developments in nine counties around San Francisco Bay.

The committee's best judgment is contained in several recommendations for legislative action that are appended to this report, which is

Respectfully submitted,

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

THE UNIVERSITY OF CALIFORNIA, June 7, 1957

Mr. J. A. Beek, Secretary of the Senate
State Capitol, Sacramento 14, California

DEAR MR. BEEK: You will recall that Senate Concurrent Resolution No. 82—Relative to Research on Heart Ailments by the University of California, dated June 8, 1955, dealt with the concern of the Legislature for the welfare of the State's citizens who are stricken by heart disease as well as for their families. This resolution cited the fact that heart disease is the first cause of death in California, that significant strides have been made in the treatment of heart disease by research at the university, and that the university should be encouraged to continue and to expand that research. The resolution also requested the regents to "report to the Legislature from time to time its need for funds or other assistance to carry on this humanitarian task * * * ."

In response to this Legislative resolution and with the help of our medical scientists, I have inquired into the scope of the heart disease problem, taking note of past research in the university, current work, and opportunities for future progress. Acting in the spirit of the Senate resolution, I enclose, on behalf of the regents, a summary of this inquiry.

I should like to stress especially two points. First, medical scientists believe it should be possible eventually to prevent the premature death each year from heart disease of thousands of citizens in the prime of life. Second, with our State's population growing larger and older and with heart disease already causing more than half of all deaths, it is clear that significant research advances would be translated into huge economic rewards for the state and its citizens, and the mitigation of human sorrow would be unmeasurable.

My inquiry reflects that our scientists have discovered leads that may lie near the core of the problem of heart disease. No easy or quick solutions can be promised for this astonishingly complex problem, however. A stable, long-range, broad-gauge attack on heart disease is envisioned by university scientists.

It is notable that while significant nonstate funds are available or can be obtained for heart research, these moneys cannot provide the stability and continuity required for the most effective work on the heart disease problem. It is our thought that the public interest would be served by beginning a long-range research program and that we might make a first request of the State for supporting funds in the 1958-59 Budget.

Sincerely yours,

ROBERT G. SPROUL

"Our Constitution, Have We Outgrown It?"

Mr. Chairman, Friends and Patriots:

It is a great privilege to come here at the invitation of so great an organization to share with you a few thoughts on the most urgent question or decision before the American people today. At this time of the year on or near the anniversary of the Constitution of the United States it is a wise custom for the people of the United States through the leadership of their most distinguished patriotic organizations to give thought to the blessings and benefits that have come to us through the operation of the principles of government and liberty firmly established by the Constitution.

In my introductory sentence I referred to "the most urgent question, before the American people." Unfortunately the American people are questioning the merits of the Constitution today as never before. Wherever it is discussed there are those who would sacrifice the great eternal principles of the sovereign rights of the citizen for the temporary and illusive benefits of the all-powerful state.

Today I want to try to bring to you a clear and present delineation of the matchless achievements of the American people working in the protective framework of our Constitution. To set out on so great a task it is imperative that we refresh our knowledge of the events immediately preceding the Constitution, events which were the foundation on which it was built.

Our Nation was founded on faith in Almighty God our Creator and a belief in His book. Liberty and freedom cannot be preserved without a belief in the God who created them. Liberty and freedom never have been preserved without belief in God and they never will be. Worship of God is necessary to build character in men to enable them to preserve freedom. It is a truth that we tend to become like what we worship.

In all history, our Declaration of Independence is the most humble and reverent declaration of human rights and responsibility the world has ever recorded. There it stands. No words of mine or of any man can add to it or take away from it the glory of its truth and reverent reliance on God's protection and assistance.

We cannot too often return to the sublimely courageous phraseology of the great Declaration. Let me quote significant selection.

"When in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

"We hold these truths to be self-evident that all men are created equal, that they are endowed by their creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed, that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and institute new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness.

"We therefore the Representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the World for the rectitude of our intentions, do, in the name, and by the authority of the good people of these Colonies, solemnly publish and declare, that these United Colonies are, and of right ought to be, free and independent States; and for the support of this declaration, with a firm reliance on the protection of Divine Providence we mutually pledge to each other our lives, our fortunes, and our sacred honor."

What could be more solemn and dignified than these words penned in a time of great strife and bitterness? Who could add to one line or sentence? Today it is our obligation to live up to these high sentiments. If we neglect these great principles of human relations and are apathetic to their emulation and preservation, we shall lose in time the incalculable benefits that have flowed from them. Without the Declaration there could have been no Constitution and without the Constitution there could have been no such freedom and prosperity as we know it.

I call upon you as my witnesses here today that there is no place in the Declaration of Independence that guarantees any results. This document and the Constitution only safeguard an opportunity for the American people to establish and maintain liberty and to provide national defense against all attack within or without. They will not work themselves. We cannot have liberty and peace without noble effort and self-sacrificing service any more than we can have bread without labor and toil. These great documents are entirely in the language of opportunity, a chance to achieve for the people of America.

So, tonight, let us look at our Constitution and attempt to identify its fruit in our modern American way of life. What has the Constitution enabled the American people to accomplish toward realizing in government the ideals of the Declaration, life, liberty and the pursuit of happiness?

First we have accomplished freedom of life. We have established effective curbs on the police and military forces of our country. The citizen cannot be placed in jeopardy for life or liberty by the police or even by any judge against the will of the accused. Every citizen may count on this security. The people have withheld from government officials and reserved to themselves in the form of juries the right to judge the guilt or innocence of their own neighbors. Americans have established the greatest consideration and fairness toward those accused of wrongdoing ever known to exist in this world. Even for petty offenses the citizen accused can demand a trial by a citizen jury of his peers within the jurisdiction of his alleged offense. This vital feature of American liberty is not equalled in other governments.

Other great powers are withheld from our government officials by the people. Leaders of the national government are powerless to alter the Constitution if they are faithful to their solemn oaths to uphold and defend it. Only by referring proposed amendments to the elected legislatures of the states or to elected conventions can amendments be effected.

The history of liberty the world around has been the story of resistance by the people to the encroachments of their own government. No matter how well intentioned, human beings in public office, some of them at least, tend to expand their power and enlarge their activity. In no other country have the people more safeguards, more weapons to strengthen their resistance by peaceful means to such trespass of the liberties which have been reserved to the people by the Constitution.

In the Constitution itself there are numberless checks and balances to safeguard our Country against arbitrary caprice in official acts. Congressional action is subject to presidential veto. The veto may be over-ridden by a two-thirds vote in each house of Congress. The President must obey the laws duly enacted and must uphold the Constitution. If he fails, Congress by the process of impeachment may remove him from office. The President may not touch a single dollar in the Treasury without first receiving an appropriation by Congress. The powerful House of Representatives in Congress is required to come before the people for election or removal every two years. In almost 170 years no one has subverted our constitutional processes and today our government is the oldest national government in the world without major change in its fundamental make up.

Another check or balance on the presidential power is that the most important appointments made by the President are subject to the approval and consent of the Senate. Thus the important policy decisions of the American government are for the most part the result of the concerted action of several or even many officials.

Historically the last word in the defense of the Constitution has been the prerogative of the judiciary with the final resort being the Supreme Court. Acts of Congress may be challenged in the courts by any citizen

and if the courts find that they are in conflict with the Constitution, the congressional act is void. So we have a government of laws made by many rather than one official and all subject to the scrutiny of the courts as to their conformity with the Constitution.

The security of the American citizen in his constitutional rights is our Nation's most outstanding and unique political accomplishment. So much for our political institutions.

Equal or perhaps greater significance attaches to the economic results that have followed the security of our citizens in political rights. The best characterization of our rights is the phrase in the Declaration, "life, liberty and the pursuit of happiness." But life would be undesirable without liberty and liberty unenjoyable without the opportunity to seek happiness and contentment. Happiness and contentment ordinarily include securing a home, shelter, food, clothing and a gainful occupation and other property rights. We hear much of the rights of freedom of speech and press but not so often do we consider the vital necessity of the right to possession of property lawfully acquired. This is securely established in the Constitution but is little glamorized because it is not often challenged in regard to the possessions of the average family.

The right to be secure in the ownership of a home of your own, the right to labor and to keep the product of your labor or business has so inspired the American men and women that they have produced an abundance of good living nowhere equalled in all the world's history.

American industry, the teamwork of capital, management and labor, produces in such abundance for American markets as to make our Nation the financial banker of the whole world. American industry did not grow big by regulation, but by service rendered. Competition is the most stimulating regulator ever found.

Both the investor and the laborer are guaranteed the right to organize and to cooperate together to increase their gains. Under free enterprise, the people, all of the people, of the United States have a greater purchasing power—have more, buy more, possess more, and use more food, clothing and housing and everything else—than all the people of Europe and Asia combined. These are obvious and very practical achievements of the American people under our constitutional liberties.

Hours and days of labor are reduced. Working people ride to work in automobiles instead of walking or riding a bicycle as in other countries. Clothing is purchased with one-third the hours of labor that are required in the most favored countries of the eastern world. Our homes are larger and filled with labor-saving equipment unknown in other lands. Also we have achieved the widest distribution of good living standards among more of our people than elsewhere.

Another result of our unprecedented industrial production is that it has become our greatest bulwark of defense. Not only was our country able to produce the vast store of arms and ammunition for our armed forces in the late World War but great quantities of armament were supplied to our allied free nations. Freedom is as vitally important to us for the preservation of our national existence today as when the Constitution was written 170 years ago.

Perhaps an even greater product of American freedoms is the cultural advancement in our country. Fraternal lodges, service and luncheon clubs, recreational clubs and charitable organizations abound in every city, town, and hamlet. All are developing new heights of service. Religion of many faiths may be freely exercised within our country and is a potent, great, and lasting influence for good.

We tax the successful to make possible services to the less fortunate. Competition is real in America but we do not tread down those who are less successful. We have a thousand humane laws for the benefit of those who are unfortunate or handicapped. Our provision for those in need exceeds the rewards of skilled laborers in four-fifths of the rest of the world. These services are made possible by the production and skills of the successful.

Another distinctive thing our Constitution has done is that it has attracted as immigrants to this land over twenty-two million people. This is unique in all the history of mankind. They have left their loved native lands and the homes of their childhood, parted from kindred and friends to cross the wide seas to come here and swear allegiance to our Constitution. Gladly they have brought their little ones, their families and posterity to leave them in the keeping of the American people under our Constitution.

To do this, to make such a drastic change in their life's surroundings means two things: life under our Constitution had great attractions for them and life away from the benefits of our Constitution was one of privation, hardship, and lack of opportunity.

What would you take for the privilege of living in America? What would induce you to leave America once for all never to return? Oh yes, the Constitution makes a difference. Let's keep it unimpaired. Don't let the agents of a foreign enemy talk you into weakening it or subordinating our Constitution to any foreign ideas.

I could go on and on and recite the familiar things that we take for granted but that are only possible because of our political framework, our Constitution. But my time is passing quickly. Let me tell you some things that are not the prime cause of our American achievements. First too much credit is given to our natural resources. They do not exceed those of many other populous lands. Russia has many times the standing timber than America ever had. We have only a small percentage of the mineral, coal and oil deposits of this world. Our acreage of good agricultural land is less than six percent of that in the world. No it is not the material land within our borders that has made us great, it is true that we have developed our resources and made good use of them, more so than other peoples, but that is American industry, thrift and energy spurred on by the possibility of enjoyment of one's own achievements.

Another thing that cannot explain our material success is our location, far from the principal markets of the world. We are half way around the world from the greatest population centers. We have been materially successful in spite of our isolated location, not because of it.

Again, no one can attribute our prosperity and material success to military conquest. We hold and rule no conquered land. Along our far-flung land frontiers our neighbours dwell peacefully and unafraid without forts or defenses of any kind. The American Constitution is the

greatest peace document ever produced by men. Our weaker neighbors pay us no tribute but dwell secure under our protection from the greed of conquest by totalitarian countries. The flow of wealth is not from the weak to this powerful nation but from us to the weak and underdeveloped countries.

Again let us look at the throngs of people coming to America. Of necessity we have had to wisely limit the number, but they are coming by hundreds of thousands every year, the poor and oppressed of other lands, the refugees from political dictatorships and the ambitious youth who seek to escape the limitations of social and economic restrictions across the seas. Yes, there is a constant movement of population from even the mildly socialistic countries seeking the opportunities of free enterprise in America.

But let's look at the other side. Who is leaving America? Who are fleeing from America? Who are leaving with no thought of returning? They are so conspicuous I could almost name them to you, the Gerhardt Eislers and others who have been caught in the attempt to destroy America. I wish we could get enough action, official and judicial action, careful but firm, that would run out a lot more of these conspirators that plot to destroy all that we hold dear.

Obviously our Constitution is a very important document to a great many people. It was Abraham Lincoln who said, "If destruction be our lot, we must ourselves be its author and finisher. As a nation of free men we must live through all time or die by suicide." But we have a duty to uphold and protect our freedom for it was Edmund Burke who first told us, "All that is necessary for the triumph of evil is for good men to do nothing." But what evil do we face, do you ask.

Karl Marx declared, "Christian brotherly love has been tried for 18 centuries and found wanting. I will found my movement on a more dynamic force, class antagonism." This is the challenge the world faces today. This is the battle cry of the impatient conquerors of 800 millions abroad, as they cast their envious eyes at our riches.

And how are we to meet that challenge? First we must meet it with the truth. The truth about America and its greatness and how we achieved it must be carefully taught to all of our youth and made available to all adults. Where communism and other forms of government have to be considered, the destructive evils that are inseparable from communist operation must be included on a truthful and factual basis.

The American people are willing to fight Communist attacks on free men overseas but have not awakened to the need to defend leaders and institutions in our homeland from obviously Communist inspired attacks. Our most dangerous enemies are not marching under foreign flags but infiltrating here in our affairs.

Of what avail is it that American youth win costly victories on bloody foreign battlefields if we at home allow similar enemies to discredit our Constitution and weaken the faith of our people in our American institutions that make our American economic system productive and beneficial to all of us.

Our enemies wage the cold war by word of mouth and by the printed page to weaken, deceive and divide their prospective victims. They announce the "liberation" of the people of any country they conquer. They proclaim their new dictatorships to be "people's democracies." They call their despotism, "republics." Communists have stolen the language of freedom and successfully perverted it to serve their own methods of conquest and subjection. They use our most precious words to enslave unsuspecting peoples.

Fortunately our courts have held that our Constitution is clearly not a suicide pact. The thoughtful men who framed the words and spirit of this great charter of our freedom had no thought of guaranteeing unrestrained action to those who are working to destroy our freedom and substitute the Soviet Dictatorship or any other form of centralized power.

Our state and national lawmakers have acted to restrain those who plot the overthrow of our Constitution. The courts have convicted large numbers of those accused but our vigilance must continue.

And for us, what is there for us to do? First we must use our freedom of speech to help preserve our freedom. We must speak out in defense of our Constitution and in defense of our American production system. Of course there are inconveniences. America is growing. Like our highway construction there are detours, temporary, of course on our Way of Life. But I maintain that America is 90 percent all right and the other 10 percent is under construction.

When folks read a newspaper or book they like to look at the pictures even though they skip through the reading matter. So they may not pay too close attention to what we say, but if our lives are neighbourly and helpful, and our loyalty to our country is obvious in all our daily actions, the influence of us all cannot be anything but helpful and an inspiration to others to greater loyalty.

Also every American should be ready to give a reason for his faith in the Constitution. He should read it and study it. He should know it from beginning to end. Get from your libraries the fascinating story of how it was written. Learn to know and tell others about the interesting lives of Madison, Jefferson, Washington and Hamilton and the others.

There is only one stronghold of freedom militarily able to resist the power of world Communist dictatorship today and that is our country built on our Constitution.

Will you not serve in its defense in peace as unselfishly as many of you have served in war? Speak out effectively but kindly for the preservation of the Constitution and American freedoms. Have we outgrown our Constitution? Perish the thought. It is true that America has grown from three million souls to 170 million under the form of government based on our Constitution but the Constitution has grown with America in usefulness and effectiveness. All of its principles of political procedure are sound and productive of rich benefits to the people. The stirring events of the long years of our Republic have so vindicated the wise and just rules of our immortal Constitution that I sometimes wonder if we have grown in appreciation as much as the Constitution has grown in importance and power for good to all the

world. Shall we not always swear our undying loyalty to that document described by the English statesman Gladstone long years ago, "The most wonderful work ever struck off at a given time by the brain and purpose of man."

This Constitution in 1789 gave strength and permanence to the infant republic and taught it to walk. In the youthful years and adolescent stages of our political development the Constitution restrained the impetuous leaders and guided them in a safe path.

Then through the great hour of sacrifice and trial when brother resisted brother, the Constitution was the beacon star of a peaceful settlement and reconciliation. Through the great wars with Spain and Germany, our Constitution gave great strength to our morale and fighting spirit. And can one say less of the war in the Pacific where was marshaled the greatest fleet of naval warships, the mightiest army of men and the most powerful aerial squadrons of all time until General MacArthur landed in Japan and set up a military government. And what was the result? In a few years that proud nation accepted peace with a modified government influenced by our Constitution. Today, again free and sovereign, the Japanese cherish their new freedoms derived in spirit from ours.

What greater service could be rendered by our Constitution than to serve as a basis of reconciliation and peace among men. God grant that we as a people may grow in understanding and helpful living under our Constitution to worthily interpret to the world its basic principles of peace.

Not only have we not outgrown our Constitution but as we face a future filled with new problems it is the greatest hope of men.

It is the chart and compass of men of good will whose motives are love and mercy for all men everywhere. Amid the night of wars and preparations for war our Constitution serves as the guiding light from the North Star as American leaders blaze new trails toward peace.

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

THE STATE OF TEXAS, EXECUTIVE DEPARTMENT
AUSTIN, TEXAS, May 27, 1957

Hon. Harold J. Powers, Lieutenant Governor
State Capitol, Sacramento, California

DEAR GOVERNOR POWERS: Enclosed is a resolution, duly enacted by both houses of the Fifty-fifth Texas Legislature, concerning recent activity of the Federal Government with regard to encroachment upon the reserved powers of the states under the United States Constitution.

I hope this will be of interest to you as an expression of the feeling of the people of Texas.

Sincerely yours,

PRICE DANIEL, Governor

H. C. R. No. 33

HOUSE CONCURRENT RESOLUTION

WHEREAS, Significant events have occurred in the course of contemporary history under our government of laws which call for a rededication of our constitutional theory of self-government and state sovereignty as established by our forefathers, and guaranteed in the 1st and 10th Amendments to our Federal Constitution; and

WHEREAS, Unbiased examination reveals that an appeal to reason and judgment is necessary as to all issues wherein the Federal Government has transcended its delegated authority and has encroached upon the rights of the citizens of the sovereign State of Texas and of her sister states, and this invasion of our reserved powers must not be unchallenged; and

WHEREAS, The Legislature of the State of Texas is the appropriate body under mandate from the people of Texas to intervene between Federal encroachment and state sovereignty; and

WHEREAS, Article V, Section 1, of the Constitution of the United States prescribes the only method of re-establishing those sacred constitutional principles affecting the very sovereign existence of the several states; and

WHEREAS, The Texas Legislature explicitly affirms and declares that the powers of the Federal Government in all its branches and agencies are limited by the terms of the Constitution creating the Federal union to which the states are parties and by the plain sense and intended construction and interpretation of its provisions; and

WHEREAS, The basic concept of the Federal Constitution apparent upon its face is that the ratifying states, parties thereto, agreed voluntarily to delegate certain of their sovereign rights to a Federal Government thus constituted and that all powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the respective states or to the people; and

WHEREAS, Failure of this State to emphasize her clearly-reserved powers could be construed as tacit consent and acquiescence in the surrender thereof; and that submissive acquiescence to palpable, deliberate and dangerous encroachment could in the end lead to the surrender of all powers reserved to the states and inevitably to the obliteration and destruction of the sovereignty of the states contrary to the concepts and ideals embodied in the sacred compact by which this union of the states was created; now, therefore, be it

Resolved by the House of Representatives of the State of Texas, the Senate concurring, That the sovereign State of Texas intervenes and registers officially its objection on behalf of its people to the effort of the Federal Government to assert an unlawful dominion over her citizens and humbly appeals to her sister states for their help and guidance in protecting the inalienable rights and cherished freedoms; to join in taking appropriate steps for submission of a Constitutional Amendment which clearly and unequivocally defines state rights as understood by our forefathers, the framers of the Texas Constitution and the United States Constitution; and that, until the question of states rights here asserted by the State of Texas be settled by clear Constitutional Amendment, Texas declares her

firm intention to take all appropriate measures honorably, legally and constitutionally available to the State to resist illegal encroachment upon her sovereign power, and to urge her forty-seven sister states to the North, to the East and to the West to join in protecting these inviolable rights and cherished freedoms of their people and to urge the Congress of the United States to exercise prompt and deliberate efforts to curtail further encroachment by the Federal Government upon the reserved powers of the respective States; and, be it further

Resolved, That a copy of this resolution be transmitted by His Excellency, The Governor of Texas, to the Governor and Legislature of each of the other states, to the President of the United States, to each of the Houses of Congress, to Texas Representatives and Senators in Congress, and to the Supreme Court of the United States.

26652. 26653. The assessment so levied shall be collected at the time and in the manner of county taxes and paid into the county treasury. The net amount of the taxes, after the deduction of the county's compensation for the services of its treasurer, assessor and tax collector shall paid to the district by warrant of the county auditor.

SEC. 3. Section 4453 of the Labor Code is amended to read:

4453. In computing average annual earnings for the purposes of temporary disability indemnity only, the average weekly earnings shall be taken at not less than twenty-three dollars and eight cents ($23.08) nor more than [sixty-one dollars and fifty-four cents ($61.54)] *eighty-four dollars and sixty-two cents ($84.62)*. In computing average annual earnings for purposes of permanent disability indemnity, the average weekly earnings shall be taken at not less than twenty-three dollars and eight cents ($23.08) nor more than [fifty-three dollars and eighty-five cents ($53.85)] *sixty-one dollars and fifty-four cents ($61.54)*. Between these limits the average weekly earnings, except as provided in Sections 4456 to 4459, shall be arrived at as follows:

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 95 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 95 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury.

(d) Where the employment is for less than 30 hours per week, or where for any reason the foregoing methods of arriving at the average weekly earnings cannot reasonably and fairly be applied, the average weekly earnings shall be taken at 95 percent of the sum which reasonably represents the average weekly earning capacity of the injured employee at the time of his injury, due consideration being given to his actual earnings from all sources and employments.

SEC. 4. Section 4455 of the Labor Code is hereby amended to read:

4455. If the injured employee is under 21 years of age, and his incapacity is permanent, his average weekly earnings shall be deemed, within the limits fixed in Section 4453, to be the weekly sum which under ordinary circumstances he would probably be able to earn at the age of 21 years, in the occupation in which he was employed at the time of the injury or in any occupation to which he would reasonably have been promoted if he had not been injured. If such probable earnings at the age of 21 years cannot reasonably be determined, his average weekly earnings shall be taken as [fifty-three dollars and eighty-five cents ($53.85)] *sixty-one dollars and fifty-four cents ($61.54)*.

SEC. 5. Section 4460 of the Labor Code is amended to read:

CHAPTER 6. URBAN RENEWAL

Article 1. General

33970. In addition to its powers under any other section of this part, an agency is authorized to plan and undertake urban renewal projects.

33971. "Urban renewal" means undertakings and activities for the elimination and for the prevention of the development or spread of blighted areas, and may involve any redevelopment work or undertaking or any rehabilitation and conservation work, or any combination or part of such undertaking or work.

33972. "Rehabilitation" or "conservation" may include the restoration and renewal of a blighted, deteriorated, or deteriorating area by:

(a) Carrying out plans for a program of voluntary or compulsory repair and rehabilitation of buildings or other improvements in accordance with the urban renewal plan;

(b) Acquisition of certain real property and demolition or removal of buildings and improvements thereon where necessary to eliminate unhealthful, insanitary or unsafe conditions, lessen density, eliminate obsolete or other uses detrimental to the public welfare, or to otherwise remove or prevent the spread of blight or deterioration, or to provide land for needed public facilities;

(c) Installation, construction or reconstruction, of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out in the area an urban renewal plan; and

(d) Disposing of any real property acquired to private enterprise or public agencies for use in accordance with an urban renewal plan.

33973. "Urban renewal area" means a blighted, deteriorated or deteriorating area, the urban renewal of which is necessary to effectuate the public purposes declared in this part.

33974. "Urban renewal plan" means a plan for the urban renewal of a project area. Such a plan shall be subject to all the requirements and prepared and approved pursuant to all the provisions and procedures of this part applicable to a redevelopment plan and the preparation and approval thereof.

33975. "Urban renewal project" means an undertaking of an agency pursuant to an official urban renewal plan designated by the legislative body in accordance with this part. Such a project shall be subject to all the requirements and provisions of this part applicable to a redevelopment project.

33976. The findings and declarations heretofore made in this part with respect to the existence of blighted areas in need of redevelopment are hereby affirmed and restated.

33977. It is hereby further found and declared that:

(a) There exist in many communities other areas in which the conditions by which blighted areas are characterized are present to a lesser degree but still to such an extent that such areas are deteriorated or deteriorating and threaten to become blighted areas if the conditions of blight in them are not remedied.

(b) The existence of such deteriorated and deteriorating areas thus threatens to increase still further the extent, scope and effect of blighted areas and is itself declared to be a menace which is condemned as injurious and inimical to the public health, safety and welfare of the people of the communities in which they exist and of the State.

(c) In such deteriorated and deteriorating areas, and in some blighted areas, the conditions of blight can be remedied, the process of deterioration halted, and the spread of blight and development of blighted areas prevented by rehabilitation and conservation.

(d) The effective rehabilitation and conservation of such areas may require public acquisition at fair prices of certain parcels of land where necessary to eliminate unhealthful, insanitary or unsafe conditions, lessen density, eliminate obsolete or other uses detrimental to the public welfare, or to otherwise remove or prevent the spread of blight or deterioration, or to provide land for public facilities.

33978. It is further found and declared that there exists in many communities still other areas, parts of which are blighted to the extent that they require redevelopment, and other parts of which are blighted, deteriorated and deteriorating to the extent that they require rehabilitation and conservation, and the effective remedying of the conditions of blight and urban renewal of such areas requires the combination of redevelopment, rehabilitation and conservation measures.

33979. For these reasons it is declared to be the further policy of the State and the further purposes of this part:

(a) To promote and advance the urban renewal of blighted, deteriorated and deteriorating areas and the general welfare of the inhabitants of the communities in which such areas exist by the employment of all appropriate means.

(b) That whenever the urban renewal of blighted, deteriorated and deteriorating areas cannot be accomplished by private enterprise alone, without public participation and assistance in planning, in the acquisition of land, in the work of clearance, relocation of families and preparing the land for new building, in carrying out programs of voluntary or compulsory repair and rehabilitation of structures or other improvements, and in making site improvements and providing community facilities, it is in the public interest to employ the power of eminent domain and to advance or expend public funds for these purposes and otherwise to provide means by which blighted, deteriorated and deteriorating areas may be renewed.

(c) That the urban renewal of blighted, deteriorated and deteriorating areas and the provision of continuing land use and construction policies in them are public uses and purposes for which public money may be advanced or expended and private property acquired, and are governmental functions of state and community concern in the interest of the health, safety and general welfare of the people of the State and of the communities in which the areas exist.

(d) That the benefits which will result from the remedying of conditions of blight and the elimination and the prevention of the spread of blighted areas by the urban renewal of blighted, deteriorated and deteriorating areas shall accrue to all the inhabitants and property owners of the communities in which such areas exist.

(e) That the necessity in the public interest for the provisions of this part is a matter of legislative determination.

33980. In connection with the planning and undertaking of any urban renewal project, the agency, the community, the legislative body, the planning commission, and all public officers, agencies and bodies shall have all the powers, duties, rights, privileges and immunities which they have in respect to a redevelopment plan or a redevelopment project, in the same manner as though all the provisions of this part applicable to a redevelopment plan or a redevelopment project were applicable to an urban renewal plan or an urban renewal project; provided, that the provisions of this section shall not apply to the taxation provisions of all of Article 4 of Chapter 5 of this part.

33981. In addition to the plans which an agency is otherwise authorized to prepare, an agency is hereby specifically authorized to prepare plans within urban renewal areas for urban renewal projects to include (1) a program of voluntary or compulsory repair and rehabilitation of buildings and improvements, and (2) the enforcement of laws, codes and regulations relating to the use of land and the use and occupancy of buildings and improvements, and to the compulsory repair, rehabilitation, demolition or removal of buildings and improvements. An agency is authorized to develop, test and report methods and techniques, and carry out demonstrations and other activities, for the prevention and elimination of conditions of blight and blighted areas.

33982. For purposes of urban renewal and urban renewal planning and projects, the word "redevelopment" as used in this part shall mean "urban renewal," and the word "blighted" as used in this part shall mean "blighted, deteriorated or deteriorating"; provided, that the provisions of this section shall not apply in this chapter, nor in the definitions in Section 33013, as amended, Section 33013.01 and Section 33014, as amended, nor in the declaration of state policy of Article 2 of Chapter 1, nor in the provisions in reference to taxation in Article 4 of Chapter 5; and provided further, that this section shall not amend any section of this part or change the short title of this part or the corporate name of an agency.

33983. The provisions for urban renewal in this chapter shall not become operative in any community unless and until the legislative body of the community declares, by resolution, that there is need for urban renewal in the community. The provisions of this chapter shall not grant to any such agency in any community powers which are now or hereafter granted to any other officer, board, or department of the community by charter or ordinance without the consent of the legislative body of such community by ordinance.

33984. At any time following the adoption by the legislative body of a resolution declaring there is need for urban renewal in the community, the words "urban renewal" may be substituted for the word "redevelopment" wherever in this part the word redevelopment is used as part of the name of an agency, an administrative fund or a revolving fund established pursuant to this part; provided, that the provisions of this section shall not apply in any community unless and until the legislative body thereof, by resolution, declares that said provision shall be applicable.

33985. The urban renewal agency shall provide a feasible method for the temporary or permanent relocation of persons displaced from the urban renewal area and shall require that there be provided, in the urban renewal area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families displaced from the urban renewal area, decent, safe, and sanitary dwellings equal in number to the number available to such displaced persons and reasonably accessible to their places of employment.

SEC. 7. Nothing in this act shall be construed as a determination by the Legislature that redevelopment agencies did not have some or all of the powers herein specified prior to this enactment; to the extent that such agencies have such powers prior to the effective date hereof, this act shall be construed as a restatement thereof."

PRAYER

The following prayer was offered by the Chaplain, Rev. Father Luke Powleson:

Penetrate us, O Lord, this day with Thy great and eternal truths. Speak efficatiously to our hearts—inspire us with Thy holy disposition. Give to us an invincible courage, a perfect submission to Thy holy will and an entire confidence in Thy almighty protection in order that we may be strengthened in the work before us and persevere in it to the very end. Grant us, Lord, an enduring patience, an ardent desire to please Thee and our fellow citizens in all things. May we carefully consult Thee in all our doubts and have recourse to Thee in every danger and be attentive to Thy heavenly inspirations. O Lord, we will manfully follow Thy admonitions, execute Thy orders and not permit ourselves to be drawn into anything harmful for our State. Permit us, O Lord, never to be troubled about what others may think or say of us, but grant that our thoughts, words and actions may be ever directed by the sole intention of being agreeable to Thy holy will and in the interest of our citizens. May we in the work before us, be in accord with the rules and principles of Thy divine word, so that in the end Thou mayest in Thy mercy, deem us worthy of that reward of a work well done and pleasing unto Thee and all those whom we serve. AMEN.

Senate Resolution No. 201

Relative to the creation of the Senate Interim Committee on Narcotics

WHEREAS, The problem of unlawful use and distribution of narcotics, for many years of concern to the Legislature, continues to rank high among the great social evils of our day, notwithstanding the bulk of the present laws on the subject, increased public interest, and widespread education on the subject; and

WHEREAS, Particularly, narcotic addicts continue to be numerous, and these addicts, seeking to obtain the means to satisfy their craving, resort to crime (and it has been estimated that they commit as many as 50 percent of the crimes against property in some metropolitan areas), and often themselves become peddlers to obtain funds for their needs, intentionally enslaving others, including young people, to the narcotic habit in order to have customers for their pernicious goods; and

WHEREAS, It is apparent that the elimination of addiction or decrease in its incidence would be of benefit to those addicted, to our young people who stand in danger of being ensnared by addict-peddlers, to every citizen whose property rights and personal safety are jeopardized by the presence of addicts, and to every taxpayer who must contribute to the cost of repeatedly apprehending, prosecuting, and imprisoning addicts; and

WHEREAS, This goal has not been reached under our present laws, and it is therefore fitting, and, indeed, imperative, that further study of the problem be made so that, to the extent that the problem can be dealt with by law, the appropriate laws shall be enacted with dispatch; now, therefore, be it

Senate Resolution No. 206

Relative to an interim study by the Joint Interim Committee on Agriculture and Livestock Problems as to dairy industry advertising programs

WHEREAS, The Agricultural Code contains provisions for the contribution by dairy farmers of funds for advertising, research, promotional and educational purposes to expand markets for dairy products, and at the same time there are various voluntary contribution programs for similar market expansion purposes available to California dairy farmers; and

WHEREAS, There is little information as to the results of such programs which is available to dairy producers upon which they may arrive at a determination of the value to them of such programs; now, therefore, be it

Resolved by the Senate of the State of California, That the Joint Interim Committee on Agriculture and Livestock Problems is requested to provide in any appropriate manner for the assemblying, analyzing, and evaluating of information on the effectiveness of advertising, research, educational and promotional programs affecting the dairy industry now in effect in California, so that the results thereof can be a guide to the Legislature in aiding producers to develop under California's Agricultural Code the most effective approach to increasing the sales of fluid milk and cream, and other dairy foods so necessary to the maintenance of an adequate diet for California consumers, and to report the results of such study or studies to the Legislature.

Resolution read, and referred to Committee on Rules.

By Senator Byrne:

Senate Resolution No. 207

Relative to an interim study by the Joint Interim Committee on Agriculture and Livestock Problems as to the marketing of fluid milk

WHEREAS, Chapter 10 (commencing with Section 1300.10) of Division 6 of the Agricultural Code of California has, since 1937, provided a means for California's farmers to develop and maintain proper marketing conditions through self-help programs, with the result that the stability and prosperity of California agriculture has been greatly enhanced; and

WHEREAS, Fluid milk has not been, and is not now considered an agricultural commodity for the purposes of Chapter 10, despite the fact that many of the provisions of Chapter 10 might well be applied for the benefit of California's dairy farmers, particularly with respect to identifying as manufacturing milk that amount of fluid milk which is now being produced for manufacturing milk uses; now, therefore, be it

Resolved by the Senate of the State of California, That the Joint Interim Committee on Agriculture and Livestock Problems is requested to conduct a study on the applicability of Chapter 10 to fluid milk, and the benefits to dairy farmers of including fluid milk as an agricultural commodity under the provisions of Chapter 10, to the end that a sound decision based on established facts can be reached by the Legislature with regards to the proposal that fluid milk be included within the agricultural commodities under the provisions of Chapter 10; and be it further

Resolved, That this study be instituted at as early a date possible, so that the findings of such study may be made available to the dairy industry of California for their consideration at the earliest practicable date.

MOTION TO PRINT EXPLANATION

Senator Miller moved that the following explanation offered by Senator Dilworth to Assembly Bill No. 3045 be printed in the Journal, and that 5,000 additional copies be printed for distribution.

Motion carried.

EXPLANATION OF ASSEMBLY BILL NO. 3045

(As Amended in Conference June 11, 1957)

The bill is a decided improvement over present law because of the increase in support and because of the improved structure of the bill. Improvements in the bill will have a lasting effect on the method of apportioning state school aid. The bill puts the additional money where there is the greatest need, and provides a realistic amount of increased support.

The bill has a two-year termination clause which will require reconsideration of the problem at the next regular session of the Legislature. It requires the State Department of Education to report to the Legislature at the beginning of the 1959 Regular Session "concerning the operation, effect, administration, adequacy, and need of revision of laws relating to the subject of the support of the Public School System, including in the report its recommendations for appropriate legislation."

The bill is a closed end bill providing an increase from $180 to $193.37 per unit of average daily attendance during the preceding year. This is an increase of $13.37 per average daily attendance which amounts to 7.42 percent.

The total additional money in the bill is $36,915,853.

Equalization aid has been improved to the extent that for the first time Foundation Program amounts closely approach the average cost per pupil of education at the various levels.

Basic aid districts are granted a $5 per average daily attendance increase which will continue to allow these districts to maintain programs above the Foundation Program level.

Special education has been increased by $3,803,205 to provide for the financing required in the bills authored by Senator McBride, Assemblywoman Donahoe, and Assemblyman Doyle, increasing the expense allowances for physically handicapped and mentally retarded minors.

Commensurate increases have been provided for county school service fund, pupil transportation, and growth.

Increases have been made in the formulas for small elementary schools and small high schools to bring them in line with the formulas for the larger schools.

The bill increases the minimum salary of teachers from $3,400 to $4,200 annually, and contains enough money to provide that every regularly credentialed teacher shall be paid that salary without additional burden on district taxes.

The bill also continues the provision that 65 percent of the money available to a district from state aid and a maximum district tax shall be expended for the salaries of certificated employees.

The source of financing for this bill was all General Fund money originally. Not one cent came from any other source. These reserves are being used for the exact purpose for which they were set aside. Approximately $24,000,000 of current General Fund money will complete the financing for two years.

PRAYER

The following prayer was offered by the Chaplain, Rev. Father Luke Powleson:

O Almighty and Eternal God, as we bring our work to a close this day, we desire to render to Thy infinite Majesty, our profound thanks for the assistance Thou has given us during this session of our State Legislature. Though grave have been the duties committed to our care and great the responsibilities, we have done through Thy help, what we judge to be in the best interest of all our people. We well know and realize, Almighty God, that we are human, and that to err is part of our feeble nature. Look then, with kindness, upon our mistakes—repair, if necessary, out of the treasury of Thy boundless goodness the injuries we might have caused. Be pleased, in behalf of our State, to carry out and bring to completion the good Thou has begun through our failing hands. We beg Thy blessing upon all our Senators and those here in this chamber, who are in a position of responsibility. We commend to Thee their wives, families and friends. May the example of their goodness live as an impulse to every good endeavor. And, finally, we invoke Thy blessing upon our Country and our Nation. Guard us, O God, from calamity and injury; suffer not our adversaries to triumph over us. Enlighten with Thy wisdom and sustain with Thy power those whom the people have placed in authority—the President of these United States, his counselors and advisors, our Governor and all those who with him are entrusted with our safety and with the guardianship of our rights and our liberties. May harmony and good will flourish among all the inhabitants of our land and especially of our State; and may the spirit of America spread its blessing among us and exalt our Nation, our State, in justice, charity and peace. AMEN.

PROCEEDINGS UNDER CALL OF THE SENATE

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

STATE OF CALIFORNIA, DEPARTMENT OF PUBLIC HEALTH
BERKELEY 4, CALIFORNIA, June 7, 1957

Hon. Hugh M. Burns
President pro Tempore, State Senate
State Capitol, Sacramento, California

DEAR SENATOR BURNS: It seems appropriate as the present legislative session closes to provide you with a brief summary of the California poliomyelitis vaccination campaign.

As part of this special effort, poliomyelitis vaccination programs were started in a few health departments during the latter part of February, 1957, and by March, almost all health jurisdictions in the State had community-wide vaccination programs in operation.

The original goal was the vaccination of the estimated backlog of 6,000,000 persons 0-39 years of age. Two million of this population were expected to receive two inoculations, each, with state purchase vaccine; the remaining 4,000,000 persons were expected to receive vaccinations through the usual medical facilities or through low cost programs organized and arranged by social, industrial, church, and other groups.

It now appears that the goal which was set for vaccinations with state purchase vaccine will for the most part be attained within the next few weeks. However, the goal set for vaccinations with commercial vaccine has been retarded due to the vaccine shortage and this part of the campaign will need additional activity to reach completion. It is estimated that 40 percent of the total goal will have been reached by June 30, 1957.

The appropriation of $3,000,000 by the Legislature was divided into three parts, as follows:

EXPENDITURES

Planned		*Actual*
$2,450,000	(Purchase of vaccine)	$2,607,900
380,000	(Administrative use in local health departments)	369,000
170,000	(Administration and promotion on state level)	23,100

Cumulative reports for the months of March, April, and May, indicate that approximately 3,500,000 inoculations have been given in the campaign. Of this number, 2,500,000 inoculations were given with public-purchase vaccine. Thus, over half of the vaccine available through state purchase has already been used.

At present, 52 of the 67 health jurisdictions of California have received their total basic allotments of state-purchase vaccine and eight of these are continuing their programs with state-pool vaccine. All counties have been supplied with sufficient vaccine to meet their current program needs for public agency use.

During the month of March over 989,000 inoculations were given in public programs in California; more than three times the number of inoculations given in any month during the federal vaccination program. Even this record might have been exceeded in the month of April had it not been for the national shortage of vaccine which developed in mid March—making it necessary to curtail programs in progress in some areas and to postpone starting dates for programs in others. This shortage was reflected in the fact that 250,000 fewer inoculations were reported for the month of April than for the month of March. Some originally anticipated promotional activities were dropped and it was possible to transfer $146,900 from the amount set aside for state promotional campaigns to purchase additional vaccine. (This additional vaccine is being used as a "state pool" available to local departments where programs require more than the original basic allotments.)

Since the beginning of the campaign, all manufacturers of Salk vaccine have reduced the price of the product. This has made it possible to purchase still more vaccine than originally planned. The total vaccine purchased with state funds amounts to 478,095 vials (4,302,855 doses). The State has received delivery on 348,378 vials (3,136,302 doses), up to June 7, 1957.

Thus, it would appear that the campaign has been remarkably successful in spite of the vaccine supply problems encountered. The local health departments with the cooperation of their county medical societies, local chapters of the National Foundation for Infantile Paralysis, and other interested groups have done much to reduce the backlog of unvaccinated persons in California.

The major part of the state public purchase campaign will terminate on June 30, 1957, although some vaccine will be used for another few months. From then on, the responsibility will rest with local health departments and medical societies to incorporate vaccination against poliomyelitis into the routine immunizations now accepted and promoted for the public.

Continued publicity and education as to the safety and efficacy of the Salk vaccine and the promotion of its use will be required at least for the next year. This will be necessary in order to extend the use of poliomyelitis vaccine and convince those who have not been vaccinated to avail themselves of this protection. Only in this way can we maintain a highly immunized population and thereby reduce paralytic poliomyelitis to a minimum in California.

We shall be glad to furnish you with any additional information you may require concerning the program.

The above report has been submitted to Governor Knight.

Very sincerely yours,

MALCOLM H. MERRILL, M.D., Director of Public Health

JOINT INTERIM COMMITTEE ON TRANSPORTATION PROBLEMS
CALIFORNIA LEGISLATURE, June 12, 1957

To the President of the Senate, the Speaker of the Assembly and Members of the Senate and Assembly

This report on county road and city street deficiencies is an essential step in obtaining information necessary for the orderly planning, development and integration of an adequate system of highways and thoroughfares throughout the State. This committee recognizes that it is essential that road needs and problems of both cities and counties merit the same attention given to state highways and the Legislature should continue to give its attention to these vital components of a state-wide system of adequate highway facilities in keeping with the growth of this State.

Based upon the review of these deficiencies existing on city streets and county roads, specific emphasis has been given to the following:

(1) The need for counties and cities to have current information on the condition of their local road systems at least once each year together with a general plan for the financing of improvements to county roads and city streets. To establish uniformity consistent with the standards developed by the advisory committees from counties and cities, Senate Bill No. 20 has been introduced and has now been approved by both the Senate and Assembly of the Legislature.

(2) The effective utilization and management of funds available for the improvement and correction of the deficiencies existing on county roads and city streets.

(3) The critical need for a general review of state highway, county road and city street classification to provide the Legislature with specific information as a guide in establishing policy relating thereto.

The substantial assistance and cooperation provided by the Advisory Committee of County Road Commissioners and the Highway Advisory Committee for Cities, County Supervisors Association, Mr. William R. McDougall, General Manager, the League of California Cities, Mr. Richard Carpenter, Executive Director, and their respective staffs; the State Controller, Mr. Robert Kirkwood and his staff; Mr. George T. PROCEEDINGS UNDER CALL OF THE SENATE MOTION TO PRINT SPEECH

Senator Desmond moved that the following speech given by Mr. Richard F. Desmond in the Assembly during the St. Patrick's Day observance be printed in the Journal.

Motion carried.

SPEECH BY MR. RICHARD F. DESMOND GIVEN IN THE ASSEMBLY DURING ST. PATRICK'S DAY OBSERVANCE

On the night of March 17, 1776, the English troops evacuated Boston, and General Washington ordered that the watchword in the patriot lines should be, "St. Patrick." From that historic night to the year 1957 the people of this great Nation have annually paid honor and high tribute to that patron saint of Ireland.

But, as I reflected upon the subject of this address, and, as I read of the sum allocated by your honorable body to foster this ceremony, I could not help but wonder, "why?" What possible significance does a man who lived in a foreign land 1,500 years ago have to the American heritage and the State of California today? Why does not our Legislature honor with the same great gusto and acclamation the memory of Mohammed, the prophet; Martin Luther, the German reformer; St. Paul, the great evangelist; Moses, Calvin, Wesley, or even the name of Jesus Christ himself? Indeed, what other foreign personage, symbol or tradition is so universally honored in America as St. Patrick's Day?

Perhaps St. Patrick is a symbol of the Irish people and the Irish history, and those are the ones who we truly honor here today. Such would appear to be the case, as, without regard for genealogical background, sprigs of green and bits of Kelly green cloth blossom forth upon the persons of the majority of our citizens. Proud we are of the Irish race, and quick we are, as individuals, to identify and associate ourselves with the Irish on this day, regardless of the lack of existence of a drop of Celtic blood in our veins. Today we presume to discover the Irish as the cynical Englishman once said,

"Before I came across the sea
To this delightful place,
I thought the native Irish were
A funny sort of race;
I thought they went about the place
As tight as they could get;
And that they always had a fight
With everyone they met.

I thought their noses all turned up
Just like a crooked pin;
I thought their mouths six inches wide
And always on the grin;
I thought their heads were made of stuff
As hard as any nails;
I half suspected that they were
Possessed of little tails.

But when I came unto the land
Of which I heard so much,
I found that the inhabitants
Were not entirely such.
I found their teeth were quite as small
As Europeans' are,
And that their ears, in point of size,
Were not pecul-iar.

I even saw a face or two
Which might be handsome called;
And by their very largest feet
I was not much appalled.
I found them sober now and then;
And even in the street,
It seems they do not have a fight
With everyone they meet.

I even found some honest men
Among the very poor;
And I have heard some sentences
Which did not end with 'shure.'
In fact, they're not all brutes or fools
And I suspect that when
They rule themselves they'll be as good
As any Englishmen!"

Well does the history of the Irish race and nation justify this, our humble tribute. Neither Latin nor invaded by the Romans, Ireland preserved Latin letters and Roman culture in its cloisters during the dark ages of invasion and conquest of the rest of Europe. It was the Irish, instructed by St. Patrick and such successors as St. Columba, who actually saved from utter destruction and the loss of learning, the philosophy and the morals of continental Europe. Ireland saved Western civilization—Ireland is the parent of our modern civilization. Be we Catholic or Protestant, our fundamentals were preserved by the Irish.

The golden age of Irish culture faded with the Danish invasions of the ninth and tenth centuries, and for 200 years the arts and learning were suppressed. The flame of liberty then shone briefly again, only to become snuffed out a few years later. Anarchy set in, and in the thirteenth century England began its conquest.

For the next six and one half centuries the history of Ireland is a long, black catalogue of wars of conquest and obstinate resistance; of confiscation and plunder; of tyranny and injustice of extermination itself. The subjections and suppressions of the Irish people by Henry VIII, Elizabeth and Cromwell find much their parallel in communist Hungary today.

For hundreds of years the Irish people had no rights; Ireland was a nation trampled into the blood-stained earth by wave after wave of ruthless persecution. Yet that nation never lost the principle of its national existence, never consented to merge its name, it ideals or its national individuality with that of its oppressors.

The Irish had something far more powerful than anything a foreign nation could impose upon them—they had, and they lived by, the word of God as brought to them by St. Patrick. This practice of their Christian faith gave them the courage to resist their oppressors both in Ireland and this nation—it gave them the boldness to preserve their faith and send it into foreign lands—it gave them humor and bestowed upon them happiness in spite of their material adversities.

But there have been other subjugated and persecuted races and peoples—the Jews and the Negroes, for example—"why honor the Irish?" we ask. First we must look at the man who created the Irish nation and brought to them the Christian faith.

The story of St. Patrick is largely legendary and but few of the facts of his life are known and verified. Born, probably in Roman Britain, in the early fifth century, he was carried in captivity to Ireland and there held in slavery by the Druids for several years. He escaped to Gaul, became a monk, and, later, a bishop charged with carrying the gospel to Ireland. There Patrick began his brilliant apostolate with the spectacular conversions of the Druids. Many times have we heard the marvelous and beautiful story of Patrick's courageous scorn

of the Druid law and the creation of the Paschal fire. The final 30 years of Patrick's life were spent in setting the emerald isle ablaze with religious zeal, his only weapons consisting of the sword of truth and the word of the gospel.

The faith Patrick brought to the people of Ireland, the truths he conveyed, the word that he spread and the conversions that he brought about were of the Catholic church. Today we, as a Nation and as a State, do not admit the truth of Patrick's message—we do not teach his dogma in our schools—his ideals are not encompassed within our national ideology, indeed, many even deny the fact of sanctity in spite of the name by which they call him. Today we wear and display the shamrock, symbol of the Holy Trinity, yet, as a Nation, we do not profess the doctrine of the Holy Trinity.

We do not imitate St. Patrick, we do not, as a Nation, subscribe to his teachings - how can it be said that we honor him today?

The persecutions of the Irish by Elizabeth and Cromwell probably was the proximate cause of the success of the American Revolution. America, therefore, traditionally honors the Irish people, the Irish nation and the Irish Saint for their aid in delivering our young country from the bondage of English tyranny and colonialism.

Seeking relief from oppressions in their homeland, the Irish flocked to the colonies by the thousands in the seventeenth and eighteenth centuries. When the patriot call was issued to resist the English impositions upon their liberties, Irish immigrants and their descendents responded freely, willingly and enthusiastically. Conservative estimates show that Irishmen comprised at least one-half of the continental army. Strengthened by past adversity and hardship, it was the Irish who best withstood the reverses suffered by the ragged forces.

While the vast majority of English sympathizers actively or passively resisting the revolutionary effort in those trying times were colonists of English descent, the revolutionary cause was most enthusiastically endorsed by all the Irish.

Irish names which stand high on the roll of glory of the revolution are far too numerous for individual mention—eight appear upon the Declaration of Independence—the great Secretary of the Continental Congress, friend of Franklin and Latin scholar was a native of Derry—General Sullivan led the revolutionary forces at Trenton, Brandywine and Germantown and captured the supplies for Bunker Hill—an O'Brien opened hostilities at sea before Lexington and Concord—The first American naval admiral, Barry, was Irish.

Need we wonder why President Washington was prompted to say, as he accepted membership in the New York branch of the Friendly Sons of St. Patrick, "I accept with singular pleasure the ensign of so worthy a fraternity as that of the Sons of St. Patrick in this city—a society distinguished for the firm adherence of its members to the glorious cause in which we are embarked."

As fighting men the Irish race stands out in bold relief upon the records compiled in the crucial wars of our history. No military unit contributed more to the honor of the federal forces in the Civil War than the Irish Brigade. In modern times and a recent conflict the name of "the Sullivans" is synonymous with heroism and loyalty to country.

Our Nation is enriched not only by Irish patriotism and loyalty, but by the richness of their humour, by their love of beauty and nature as expressed so exquisitely in Irish literature, and, above all, by the great faith which, inspired by their patron, the Irish have spread with untiring zeal across the face of our land. Irish labor helped build our great railroads, and manned our factories. Singular devotion to duty by the Irish has lended dignity to the law enforcement and fire protection forces of our democracy.

The Irish people have contributed to this country loyalty and good citizenship, and, in all walks of life, the sons and daughters of Ireland show their profound allegiance to the American flag—perhaps more than contributing their share. The Irish, guided by the teachings of Christian principles have never faltered in the building of this democracy. The ideas and ideals for which they have fought in Ireland have been borne to our great Nation where the Irish loyalty to liberty has not been questioned.

We are indebted to the Irish in many ways—therefore they and their patron have been honored in our country for nearly 200 years. What value can we place upon what the teachings St. Patrick has brought to us, the monastic life which he established has preserved for us, and the Irish people, guided by them, have done for us?

We are therefore gathered here to honor the Irish people and what they have done for America and this State of California. From the heritage, however, that the Irish and St. Patrick have left us, we must also learn a lesson which should be remembered, not once a year, but every day.

Through years of anarchy the Irishmen had and lived with law—the law of God. As a nation, we may not adopt the dogma taught by Patrick and his missioners—but as a Christian nation, we have most certain adopted their basic principles—the ten commandments . . . the Christian virtues.

If we refused to simply nod our heads and agree and give them lip service—if we but daily taught and constantly abided by these principles as a nation—how

easy would your task as lawmakers be! Simply analyze our statutes and our bills then apply the Christian virtues and commandments—would that statute then be necessary upon our books? If the virtues were practiced and commandments obeyed what earthly power could obtain dominion over us—what need then of earthly laws and institutions?

It was thus, without man-made law, that the Irish preserved their nation and their principles—and only in the same manner shall we preserve ours. May God give our Legislature the light to guide our nation and preserve it.

May God continue to grant to us freedom of worship—bestow upon us freedom of speech—and to confer upon us all the other freedoms, rights and privileges which he has so generously done in the past. For only if we continue to enjoy these will we be free in the future to celebrate and enjoy St. Patrick's day.

May God bless all of us, and all the Irish—always!

PART 2. DISABLED PERSONS

CHAPTER 1. AID TO THE NEEDY DISABLED

Article 1. General Provisions

4000. When used in this chapter the following words shall have the meanings ascribed to them in this section:

(a) "Needy disabled person" means a person who meets the eligibility requirements set forth in this chapter and who is both permanently impaired and totally disabled.

(b) "Permanently impaired and totally disabled" means suffering from a major physical or a major mental impairment, not a psychosis, or a combination of both which is verifiable by medical findings and appears reasonably certain to continue throughout the lifetime of the individual without substantial improvement. Such

permanently impaired and totally disabled person shall not be qualified under this chapter unless he requires constant and continuous care.

A person needing constant and continuous care is one who is bedfast, chairbound, or in need of physical assistance without which the daily regimen could not continue or whose mental or physical impairment makes continuous supervision essential.

The definitions of terms as provided for in this section shall not be liberally construed as if such terms were used in contracts, but the definitions of such terms shall be strictly construed.

4002. In administering this chapter the Department of Social Welfare shall encourage the rehabilitation or employment of the recipient if it appears that with proper care and training such person may become wholly or partially self-supporting. The policy shall be followed of granting the aid to the recipient in his own home or in some other suitable home of his own choosing, in preference to placing him in an institution.

4003. All aid granted under the provisions of this chapter is granted and held subject to the provisions of any law hereafter enacted amending, repealing, or supplementing in whole or in part the provisions of this chapter, and subject to the rules and regulations of the State Department of Social Welfare. No recipient under this chapter shall have any claim for compensation or otherwise because his aid is affected in any way by any such amending, repealing, or supplemental act, or by any such rule or regulation or by any addition, amendment, or repeal of such rules and regulations.

4004. All aid given under this chapter shall be absolutely inalienable by any assignment, sale, attachment, execution, or otherwise and in case of bankruptcy the aid shall not pass through any trustee or other person acting on behalf of creditors.

4005. Any person who, knowing he is not entitled thereto, obtains or attempts to obtain aid to which he is not entitled, or a larger amount than that to which he is legally entitled, is guilty of a misdemeanor.

Whenever any person has illegally obtained aid under this chapter, he shall make restitution, and all actions necessary to secure restitution may be brought against him.

4006. Any person who knowingly violates any provision of this chapter for which no penalty is specifically provided is guilty of a misdemeanor.

4007. Nothing in this chapter shall be construed as repealing any law or part of a law providing for the support of the poor except insofar as inconsistent therewith, and the provisions of this chapter shall be construed as an additional method of supporting and providing for the needy disabled.

Article 2. State, County, and Federal Aid

4020. For needy disabled persons qualifying for aid under the provisions of this chapter there shall be paid an amount equivalent to the actual need of the recipient, but not to exceed the maximum amount payable to a recipient of aid under Chapter 1 of Division 3 of this code.

The State Social Welfare Board shall establish a standard of assistance, within the limits set forth in this section, which will enable each recipient to maintain a standard of living compatible with decency and health.

The State Department of Social Welfare may provide by rule than any change in grant for any amount of two dollars ($2) or less may be delayed not more than two months beyond the month in which the recipients reported the change in circumstances.

4021. When state and federal funds are available for this program each county shall contribute an amount equal to the total assistance paid to disabled persons who come within the provisions of this chapter, after deducting the amount of federal funds paid for the assistance of such persons, and after deducting the amount of state funds made available for the assistance of such persons, and shall further contribute an amount equal to the amount necessary for the proper and efficient administration of this chapter in the county after deducting therefrom the amount of federal funds allowed to the county for the cost of administration.

4022. The board of supervisors of every county, in addition to its other powers and duties in relation to the care and support of the poor, as provided by law, shall receive and act upon application for aid under and in accordance with this chapter and shall provide funds in its county treasury, and shall do all other acts and things necessary for the purposes of carrying out the provisions of this chapter insofar as such provisions relate to such county.

4023. No county shall receive any apportionment of funds from the State under the provisions of this chapter unless it is complying with all of the requirements of the rules and regulations of the State Department of Social Welfare.

4024. The Governor of the State of California may enter into and execute on behalf of this State all necessary agreements in connection therewith which may be required by the United States Government. Any money refunded under the provisions of this chapter shall be paid to the county, to the State, and to the United States Government. The Federal Government shall be entitled to a share of any amounts collected from recipients or from their estates proportionate to the amount

of federal funds paid, which proportionate share may be specified by the State Department of Social Welfare. The amount due the United States shall be paid promptly by the State to the United States Government and the remainder shall be paid to the county and the State in the proportion that each may have contributed to the aid granted.

4025. Aid shall be granted under this chapter only for and during such time as grants-in-aid are provided or made available to the State by the Social Security Act or other federal legislation for aid to the disabled on the basis of a state plan which has been approved by the Federal Government.

4026. There is hereby appropriated out of any money in the State Treasury not otherwise appropriated to every county within this State for maintaining or supporting needy disabled persons who come within the provisions of this chapter, aid not in excess of a sum equal to six-sevenths of the grant made pursuant to Section 4020 of this chapter to every such needy disabled person, after deducting therefrom the amount of any sum received from the United States Government as aid to the permanently and totally disabled in respect to such needy disabled person, each month for each such needy disabled person maintained or supported by such county.

Article 3. Administration

4135. The State Department of Social Welfare shall make the final determination as to permanent impairment and total disability.

4140. The State Department of Social Welfare shall prescribe the forms and reports and such rules and regulations as are necessary for carrying out the provisions of this chapter, and not inconsistent therewith. Such rules and regulations shall be binding upon the boards of supervisors of the various counties.

4145. No rule or regulation shall be adopted or continued in force the operation of which results in discrimination against treatment by prayer or spiritual means in the practice of the religion of any bona fide church, sect, denomination, or organization.

4150. The Social Welfare Board shall appoint an advisory committee consisting of not more than nine persons which shall serve in a consulting capacity. The members of the committee shall receive no compensation for their services but shall be allowed their actual traveling expenses incurred in the discharge of their duties. The committee shall make recommendations and give advice to the department on the medical and rehabilitative aspects of aid to the disabled under this chapter.

Article 4. Persons Eligible for Aid

4160. Aid shall be granted under this chapter to any needy disabled person who comes within all of the following descriptions:

Any such inmate or patient, however, may make an application for aid under this chapter and have his application investigated and acted upon without delay, in the same manner as applications of other persons are acted upon, while he is such an inmate or patient, and, if he is otherwise qualified under the terms of this chapter, such application shall be approved. The aid shall be granted to him from the first day of the month in which the determination is made that he is eligible, but in no event shall the aid commence prior to the date of the application. The applicant may remain an inmate or patient until he receives his first montly payment, whereupon he shall cease to be such inmate or patient.

(f) Who is not receiving adequate support from a husband or wife, or parent, or child able and responsible under the laws of this State to furnish such support.

4160.5. No aid shall be granted under this chapter to any individual with respect to any period with respect to which he is receiving old age security, aid to the needy blind, aid to partially self-supporting blind residents or aid to needy children.

4161. No applicant for or recipient of aid under this chapter shall be required to pay any part of the cost of any examination required under this chapter or the rules and regulations made thereunder for the granting or continuance of aid. The

costs of all such examinations shall be paid by the county in the same manner as other expenses of the county are paid.

4162. No aid under this chapter shall be granted or paid to any person who owns personal property, the value of which, less all encumbrances of record, exceeds six hundred dollars ($600).

4163. No aid under this chapter shall be granted or paid to any person who owns real property the assessed value of which as assessed by the county assessor, less all encumbrances thereon of record, exceeds five thousand dollars ($5,000). 4165. In computing the value of property under Section 4164, ownership of separate property by a spouse with whom the applicant or recipient is not living shall not preclude the applicant or recipient from receiving the aid provided in this chapter.

4166. For the purposes of this chapter the term personal property shall not include the value of personal effects of the applicant or recipient. Personal effects include clothing, furniture, household equipment, foodstuffs, fuel and personal jewelry.

Article 5. Procedure

4180. Application for aid under this chapter shall be made to the board of supervisors in the county in which the applicant resides as specified in Section 4190. All persons wishing to make application for aid shall be given the opportunity to do so and aid shall be granted with reasonable promptness to all eligible persons.

4181. The board of supervisors, directly or through an authorized agent, shall upon receipt of an application for aid, promptly, without any unnecessary delay, and with all diligence, make the necessary investigation and determine whether or not the applicant is eligible for aid except as to disability which shall be handled as specified by Section 4181.5.

4181.5. The county shall upon application and periodically as required submit a complete report, with a recommendation as to eligibility, of the medical information and other essential facts relative to the determination of permanent impairment and total disability to the State Department of Social Welfare for decision.

If the State Department of Social Welfare finds the person to be disabled in accordance with the definitions set forth in Section 4000 the county shall, if the person is otherwise eligible, authorize aid as soon as administratively possible.

4182. If the applicant is found to be eligible, payment shall be made promptly and aid shall be granted to him from the first day of the month in which the determination is made that he is eligible but in no event shall the aid commence prior to the date of application.

4185. The method of computing and advancing funds to counties shall be as follows:

(a) The State Department of Social Welfare shall, prior to the beginning of each quarter, compute the amount to be advanced each month of the quarter both as to state funds and funds made available by the United States Government.

(b) The computation shall be based upon the most recent claims filed by the county as adjusted by anticipated trends in case loads and average monthly grants.

(c) Amounts to be advanced shall be adjusted by the amount by which the estimate for any prior quarter was greater or less than the amount which would have been advanced to the county for such quarter.

(d) Upon certification by the State Department of Social Welfare of the amounts to be advanced to each county, the State Controller shall draw the necessary warrants, and prior to audit or settlement by the State Deparment of Social Welfare and the State Controller, the State Treasurer shall pay to each county the amount so certified.

(e) With respect to funds made available by the United States Government for the cost of administration no county shall receive a smaller proportion of such funds than the proportion the actual administrative expenditures of such county bears to the combined expenditures for administration of all counties and the State.

4188. (1) Reports of aid to needy disabled paid out under this chapter shall be presented by the respective counties at times and in the form prescribed by the State Department of Social Welfare. (2) Such reports shall be audited by the State Department of Social Welfare and the State Controller and, when and in the amount approved, shall be allowed to the county as a credit to apply against advances made under the terms of Section 4185.

4189. If any applicant receiving aid under the provision of this chapter has a spouse, parent, or adult child, pecuniarily able to support him, either in whole or in part, upon the failure of such kindred to perform their duty to support the disabled person the board of supervisors shall request the district attorney or other civil legal officer of the county to proceed against the kindred in the order named.

Upon such request the district attorney, or other civil legal officer of the county granting aid may, on behalf of the county, maintain an action in the superior court of the county granting such aid, against such relatives, in the order named: (1) to recover for the county such portion of the aid granted as the courts find such relative or relatives pecuniarly able to pay and (2) to secure an order requiring the payment to the county of any sums which may become due in the future for which the relative may be liable. The receipt of aid by the applicant under the provisions of this chapter, however, shall not be contingent upon such recovery or such order. The sums so recovered shall be credited by the county in its settlement with the State.

4190. County residence is not a qualification for aid under this chapter.

County responsibility for making aid payments is determined as follows:

(a) The county where the disabled person lives, or if the disabled person is a minor where the parents, relative or person in loco parentis providing a home and care for such disabled minor lives, shall accept the application and shall be responsible for paying the aid.

(b) Responsibility for payment of aid to any disabled person qualifying for and receiving aid from any county who removes to another county in this State to make his home, shall be transferred to the second county as soon as administratively possible but not later than the first day of the month following 60 days after notification to the second county.

4191. The county board of supervisors at any time when it appears to its satisfaction after investigation that a person is receiving aid to which he is not entitled, or receiving aid in a greater or lesser amount than he should receive, may cancel, suspend, revoke, increase, or decrease such aid as the case may warrant under the terms of this chapter and the rules and regulations made thereunder.

4192. If any applicant for or recipient of aid under this chapter is dissatisfied with the action of the board of supervisors, or if his application is not acted upon with reasonable promptness, he shall, upon filing a petition with the State Department of Social Welfare, have the right of appeal and shall be accorded an opportunity for a fair hearing, in accordance with Section 104.1.

SEC. 3. Section 7.5 of said code is amended to read:

7.5. The county granting the aid shall make inquiry from such persons as to their intent to remain residents of California or to become residents of another state, and shall redetermine the residence of such persons for purposes of this chapter. In any case where the inquiry made under this section establishes that the recipient is no longer a resident of this State, his aid shall be terminated immediately.

SEC. 5. Section 103.5 of said code is amended to read:

SEC. 6. Section 114.5 of said code is amended to read:

The department shall also provide at cost such subscription service as may be necessary to assure to purchasers of the printed rules and regulations prompt receipt of all additions and amendments to the rules and regulations of the department.

Nothing in this section prohibits the use of code numbers or other code symbols used and understood by county officers and agencies to identify the purpose and liability for which such warrants are drawn, if such code numbers or other code symbols are not generally so understood by the public.

The State Board of Social Welfare may make such rules and regulations concerning the contents of such warrants as may be necessary to carry out the provisions of this section.

For the purposes of the administration of aid to needy children under Chapter 1 of Part 2 of Division 2, [and] aid to the aged under Chapter 1 of Division 3, *and aid to the needy disabled under Chapter 1 of Part 2 of Division 5* the State Board of Social Welfare shall establish and maintain personnel standards on a merit basis (including therein standards of qualifications, competency, education, experience, tenure and compensation) necessary for the proper and efficient administration of the cited portions of this code which standards shall be applicable to the counties, as agents of the State for the purposes of administering state and federal funds provided for assistance under the cited portions of this code, in employing personnel for such purposes.

In the exercise of its functions under this section, the State Board of Social Welfare shall exercise no authority with respect to the selection, tenure of office and compensation of any individual if he is employed in accordance with such standards.

Nothing in this section shall prevent any county from establishing its own merit system and determining thereunder the personnel standards to be applicable to its employees, but as to those employees engaged in the administration of state and federal funds granted to a county as agent of the State for the cited portions of this code, the State Department of Social Welfare shall have a supervisory power to insure compliance with the personnel standards established to the end that this State shall at all times conform to the requirements of federal law for the continued receipt of federal grants-in-aid.

SEC. 9. Section 145 of said code is amended to read:

145. The purpose of this chapter is to provide for the continued operation of the state plans for aid to the aged, the needy blind, *aid to the needy disabled*, and needy children in the event that federal assistance therefor is temporarily delayed or not available, without the changes and modifications in such plans provided for in this code as a consequence of the withdrawal of federal assistance for such aid from this State.

145.1. As used in this chapter "joint public assistance" means the aid to needy children, aid to the aged, [and] aid to the blind, *and aid to the needy disabled* provided pursuant to Chapter 1 of Part 2 of Division 2, Chapter 1 of Division 3, Chapter 1 of Part 1 of Division 5, *and Chapter 1 of Part 2 of Division 5* of this Code, and "eligible recipient" means any person eligible for such joint public assistance under said chapters.

All such sums shall be subject to all of the provisions of said chapters applicable to funds received by this State from the United States Government, and all of the provisions of said chapters shall be construed and applied in every respect as if such funds had been in fact received by this State from the United States Government. However, none of such sums shall be considered for any purpose to be federal assistance or grants for the cost of administering joint public assistance.

SEC. 12. Section 29802 of the Government Code is amended to read:

29802. Any warrant issued for the giving of aid and payable to an indigent, a needy person, a needy child, *a needy disabled person*, or a needy blind person, or issued for the giving of such aid and payable to the guardian, trustee, disbursing agent, or any custodian of the funds or estate of any of them is void if not presented to the county treasurer for payment within six months after its date.

Any other warrant is void if not presented to the county treasurer within two years after its date.

Whenever, under the provisions of this section, warrants drawn on trust funds become void, the moneys in the county treasury represented by such warrants may be transferred to the general fund of the county by the county auditor unless disposition is otherwise provided by law.

If within five years from the date on which the original warrant became void, the payee on such a warrant presents such void warrant to the county auditor or makes affidavit that such warrant has been lost or destroyed, the county auditor shall transfer the money represented by such warrant back to the trust fund and shall draw a new warrant in favor of the payee in the same amount as the original warrant. On page 2, after line 34, insert

"SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution. The facts constituting such necessity are:

Because of extremely complex legal and other problems, many corporations desiring and attempting to liquidate in 1951, 1952 or 1953 were unable to arrange for distribution in complete liquidation of their property within the requisite period and month in either of such years, with the result that the benefits granted taxpayers by Section 17402 of the Revenue and Taxation Code have been unavailable to them. These taxpayers will, as a consequence, and for reasons beyond their control, be required to pay considerably more in the way of taxes than they would have had the corporations mentioned been able to arrange for the liquidation of their property within the period and time specified. As an additional effect of this situation, a clear disparity exists in their treatment because other taxpayers in the same class were more fortunately situated as to have received a liquidation in accordance with the conditions under which Section 17402 operates. Such a situation leads to economic inequality and is productive of unrest, thus directly affecting the public peace, health or safety. This act will eliminate such inequality and more completely and equitably carry out the intent of Section 17402."

"SECTION 1. Section 511 of the Vehicle Code is amended to read:

511. Prima Facie Speed Limits. The speed of any vehicle upon a highway not in excess of the limits specified in this section or established as authorized in this code is lawful unless clearly proved to be in violation of the basic rule declared in Section 510 hereof.

The speed of any vehicle upon a highway in excess of any of the limits specified in this section or established as authorized in this code is prima facie unlawful unless the defendant establishes by competent evidence that any said speed in excess of said limits did not constitute a violation of the basic rule declared in Section 510 hereof at the time, place and under the conditions then existing.

The prima facie limits referred to above are as follows and the same shall be applicable unless changed as authorized in this code and, if so changed, then only when signs have been erected giving notice thereof, in which event the speed designated on the sign shall be the prima facie limit:

(a) 15 miles per hour:

(1) When passing a school building or the grounds thereof, contiguous to the highway while children are going to or leaving such school during opening or closing hours or during the noon recess period. Such prima facie limits shall also apply when passing any school grounds which are not separated from the highway by a fence, gate or other physical barrier while such grounds are in use by children.

(2) When traversing a grade crossing of a steam, electric or street railway, if during the last 100 feet of the approach to such crossing the driver does not have a clear and unobstructed view of such crossing and of any traffic on such railway for a distance of 400 feet in both directions along such railway. This subdivision shall not apply in the case of any railway grade crossing where a human flagman is on duty or a clearly visible electrical or mechanical railway crossing signal device is installed but does not then indicate the immediate approach of a railway train or car.

(3) When traversing any intersection of highways if during the last 100 feet of his approach to such intersection the driver does not have a clear and unobstructed view of such intersection and of any traffic upon all of the highways entering such intersection for a distance of 100 feet along all such highways, except [on a through highway or at a traffic-controlled intersection] *at an intersection controlled by stop signs, traffic control signals, or yield right of way signs.*

(b) 25 miles per hour in any business or residence district unless a different speed is determined by competent authority under procedures set forth in this code.

[(c) 55 miles per hour under all other conditions unless a different speed is specifically designated in this code or is determined and declared by competent authority under procedures set forth in this code.]

SEC. 2. Section 511.1 of said code is amended to read:

511.1. Establishment of State Speed Zones. (a) Authority to Increase 25-mile Limit. Whenever the Department of Public Works determines upon the basis of an engineering and traffic investigation that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any state highway otherwise subject to a prima facie limit of 25 miles per hour under this code, the department may determine and declare a prima facie speed limit of 30, 35, 40, 45, [or] 50, *55, or 60* miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

(b) Authority to Decrease [55] *65*-mile Limit. Whenever the Department of Public Works determines upon the basis of an engineering and traffic survey that the [prima facie] *maximum* limit of [55] *65* miles per hour is more than is reasonable or safe upon any portion of a state highway where [such prima facie] *the maximum* limit of [55] *65* miles is applicable under this code, the department may determine and declare a prima facie speed limit of *60*, *55*, 50, 45, 40, 35 or 30 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

(c) The authority of the Department of Public Works as set forth in this section shall apply upon all state highways, whether within or outside of the limits of any incorporated city or city and county.

SEC. 3. Section 511.2 of said code is amended to read:

511.2. Authority to Link Districts.

(a) By Department of Public Works. Whenever the Department of Public Works determines upon the basis of an engineering and traffic investigation that the [prima facie] *maximum* limit of [55] *65* miles per hour is more than is reasonable or safe upon any portion of a state highway for a distance of not exceeding 2,000 feet in length between districts, either business or residence, the department may determine and declare a reasonable and safe prima facie limit thereon lower than [55] *65* miles per hour, but not less than [twenty-five] *25* miles per hour, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

(b) By Local Authorities. Whenever a local authority determines upon the basis of an engineering and traffic investigation that the [prima facie] *maximum* limit of [55] *65* miles per hour is more than is reasonable or safe upon any portion of a street or highway other than a state highway for a distance of not exceeding 2,000 feet in length between districts, either business or residence, such local

authority may determine and declare a reasonable and safe prima facie limit thereon lower than [fifty-five] *65* miles per hour, but not less than [twenty-five] *25* miles per hour, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said street or highway.

SEC. 4. Section 511.3 of said code is amended to read:

511.3. When Local Authorities May Alter Prima Facie Limits. (a) Authority to Increase 25-mile Limit. Whenever a local authority, as defined herein, determines upon the basis of an engineering and traffic investigation that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any street otherwise subject to a prima facie limit of 25 miles per hour under this code, such local authority may by ordinance determine and declare a prima facie speed limit of 30, 35, 45, 45, [or] 50, *55, or 60* miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said street.

(b) Authority to Decrease [55] *65*-mile Limit. Whenever a local authority, as defined herein, determines upon the basis of an engineering and traffic survey that the [prima facie] *maximum* limit of [55] *65* miles per hour is more than is reasonable or safe upon any portion of any street or highway where [such prima facie] *the maximum* limit of [55] *65* miles per hour is applicable under this code, such local authority may by ordinance determine and declare a prima facie speed limit of *60, 55,* 50, 45, 40, 35 or 30 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie limit shall be effective when appropriate signs giving notice thereof are erected upon such street.

(c) No local authority shall exercise the powers set forth in this section in reference to any state highway or extension thereof.

(d) With respect to boundary line streets and highways where portions thereof are within different jurisdictions, no ordinance adopted under this section shall be effective as to any such portion unless and until all authorities having jurisdiction of the portions of the street or highway concerned have approved the same. The provisions of this subdivision shall not apply in the case of boundary line streets consisting of separate roadways within different jurisdictions.

SEC. 5. Section 511.5 is added to said code, to read:

511.5. Maximum Speed Limit. No person shall operate any motor vehicle in excess of a maximum speed of 65 miles per hour on any highway.

SEC. 6. Section 753.1 is added to said code, to read:

Evidence of Speed Obtained by Use of Radar Equipment or Electronic Device. Notwithstanding any other provision of this code, evidence secured through the use of radar equipment or an electronic timing device shall be admissible in any prosecution for the purpose of arrest or prosecution under this code upon a charge involving the speed of a vehicle. Signs warning motorists of the use of radar for such purposes shall be erected at the border of each highway leading into this State from another state or country and at other appropriate places throughout the State."

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 10, 1957

Hon. J. A. Beek, Secretary of the Senate
State of California, Sacramento, California

DEAR MR. BEEK: I have your request to return to the Senate for further action Senate Bill 1681 which was delivered to my office on June 6, 1957, at 4 p.m.

I regret that I am unable to return the bill because the provisions of Article IV, Section 16, of the Constitution, which regulates procedure concerning bills after passage and presentation to the Governor, make no provision for return of bills to the Legislature except those returned with his objections, commonly called the veto. In no case since I have been Governor have bills been returned after reaching my office except with a veto message.

As a result of the large number of bills before the Legislature and the extreme pressure upon the Legislature during the session, bills reach the Governor each session which are duplicates, which overlap in part, or which contain errors or uncertainties. The constitutional provisions to which I have referred contain no provisions that deal satisfactorily with situations of this kind.

I wish, therefore, to suggest that consideration be given by the Legislature, at a convenient time, to an amendment to the Constitution which would provide a procedure for the return of bills to the Legislature for revision or other action instead of having, in all such instances, to resort to the formal veto procedure.

Respectfully,

GOODWIN J. KNIGHT, Governor

Message read, and ordered printed in the Journal.

Senate Resolution No. 84, as Amended

Relative to a Senate Committee on State and Local Taxation to make inquiry into every phase of taxation, creating the committee and defining its powers and duties.

WHEREAS, The economy of the State of California has during the recent years gone through a revolutionary change, so that industry has assumed an increased importance in relation to agriculture, mining, and commerce; and

WHEREAS, This change has resulted in bringing into the State industries and properties of large value which have not previously been considered in our tax structure, and has created new governmental problems; and

WHEREAS, The increased population incident to this change in our economy has also created new governmental problems and made new demands upon both local and state governments; and

WHEREAS, The unprecedented growth of motor transportation and the changeover to the use of diesel fuel in motor transportation during the war period, together with the added population of our State and the concentration in industrial centers, has materially changed the requirements for the support of highways, streets, and bridges; and

WHEREAS, It appears that there may be large sums in the way of federal subsidies granted both to the state and local governments which will directly affect the revenue structure and will require careful examination to coordinate the disposition of these subsidies equitably into the entire revenue program of both state and local governments; and

WHEREAS, From the beginning of the State's history, the ad valorem tax has been and still is the fiscal mainstay of local government and has not been adjusted to meet the new conditions; and

WHEREAS, The administration of taxation by the State and by the local governments has not been modernized, in fact has not been materially changed to bring it into line with present or prospective needs; and

WHEREAS, The relative burden of our several taxes on the different classes of taxpayers and different classes of property has not been fully determined; and

WHEREAS, There are new classes of property and rights that have grown up in the State that are not subject to taxation; and

WHEREAS, The acquisition, holding and exchange of land in this State by the United States of America has many aspects and involves varied and varying relationships, including the bearing and effect thereof upon taxes levied or leviable by the State and by local governmental units within the State; and

WHEREAS, Neither the state nor local governments have available to their legislative bodies information concerning all the varied phases of this problem adequate to legislative consideration and action in the endeavor to find and effect a solution; and

WHEREAS, For many years the burdens of government have been increasing both for the state and local governments, including many fixed charges not controllable by administrative bodies but brought about in answer to the demand of the people expressed in continuing legislation or in constitutional requirements, it is imperative that an appraisal be made so that revenues may be made adequate to meet the demands of government, both local and state, and the burdens of taxation may be equitably distributed upon and among the several classes of property and of taxpayers; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

Alan Post, Legislative Auditor, written in the Assembly Journal, April 22, 1957, beginning at page 3235 thereof, have all pointed out that all previous reports on proposed water projects encompassed within the California Water Plan have treated only superficially the economic and financial feasibility of any unit thereof; and

WHEREAS, The Senate desires that such a study be undertaken so it may be properly informed before it is again requested to deliberate upon appropriations for water development, flood control and water transfer and exchange projects concerning such specific questions as to how any such proposed projects can be financed; the cost of their construction; how the total cost is to be repaid, and over what period of time; what segments of the population shall bear the costs, and the sharing of such costs between Federal, State and local governments and other public and private entities that are concerned in such water development; and

WHEREAS, Since the Sacramento-San Joaquin Delta, either as a terminal or place of transfer, will inevitably be affected by further development of California's water resources; and

WHEREAS, At the same time, development of the Sacramento-San Joaquin Delta will have a significant relationship to the State-at-large and the maintenance and expansion of its water program; and

WHEREAS, Because of this relationship it is essential that all aspects of development of the Sacramento-San Joaquin Delta, founded on an examination of the factors presently influencing that area, be comprehensively investigated by a committee organized for that purpose; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

1. The Senate Interim Committee on Investigation of Proposed Water Projects is hereby created and authorized and directed to ascertain, study and analyze all facts:

(a) Necessary to determine the financial feasibility, necessity and practicability of such water projects as have heretofore or may hereafter be presented during the existence of said committee and particularly the proposed California Water Plan of the Department of Water Resources.

I. Among the specific problems to be studied and insofar as possible resolved, and based upon existing engineering economic or other types of studies, reports and analyses currently and readily available from any responsible source, regarding flood control, water conservation, water transfer and transmission and distribution systems proposed in Central and Northern California, the committee shall endeavor to ascertain the following data.

II. The current existing possibility, or the reasonable future probability, of financing both the creation of adequate water supplies in or adjacent to areas of water origin and such required excess water supplies which could be transported to areas of water deficiency and put to beneficial use in the Sacramento and San Joaquin Valleys and other areas of the State.

III. In connection with studies of projects included in the California Water Plan, or alternates thereto, and their financial feasibility, and possible coordinated water development plan, to ascertain the fair, reasonable and practical proportionate share of cost of the interests involved in said plan and the responsibilities of the various public and private entities who are concerned with water development in the State.

IV. In connection with such financial feasibility studies the following matters should be considered: the interest of the State in the construction of local water projects, and the determination of a plan or plans of reimbursement and cost allocation, based upon income from such projects and the evaluation of benefits derived therefrom and the policies to be adopted to obtain the best cooperation between the Federal and State Government, local entities and other interests, so that a feasible financing plan may be developed.

(b) Relating to the present status and prospective development of the Sacramento-San Joaquin Delta, including, but not limited to distribution, storage, pollution, drainage, salinity control, flood control, and use for navigation, recreation, and wildlife protection of the waters of the delta, and the influence on any or all of these factors of proposals and existing projects relating to water reaching the delta, whatever the source or destination of such waters; and relating to the land uses within the delta for agricultural, residential, industrial and other purposes and the prospect of future development, disruption, or maintenance of such uses, considering such problems in that connection as subsidence and flooding of lands presently in use and opportunities for protection of such lands by drainage, levees, and land management practices, as well as reclamation and development of unproductive land within the delta; and relating to the importance of the delta to national defense and the general economy and convenience, among which are problems connected with transportation within the delta, both by land and water, either in domestic or interstate and foreign commerce; including as to all the foregoing but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Senate, including in the reports its recommendations for appropriate legislation.

2. The committee shall consist of nine Members of the Senate appointed by the Committee on Rules thereof. Vacancies occurring in the membership of the committee shall be filled by the appointing power.

3. The committee is authorized to act during this session of the Legislature, including any recess, and after final adjournment until the commencement of the 1959 Regular Session, with authority to file its final report not later than the thirtieth legislative day of that session.

4. The committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Senate and Assembly and of the Standing Rules of the Senate as they are adopted and amended from time to time at this session, which provisions are incorporated herein and made applicable to this committee and its members.

5. The committee has the following additional powers and duties:

(a) To select a chairman and a vice chairman from its membership.

(b) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created.

(c) To cooperate with and secure the cooperation of county, city, city and county, and other local law enforcement agencies in investigating any matter within the scope of this resolution and to direct the sheriff of any county to serve subpenas, orders and other process issued by the committee.

(d) To report its findings and recommendations to the Legislature and to the people from time to time and at any time, not later than herein provided.

(e) The committee or any subcommittee may meet within or without the State as may be required in order to carry out the purposes for which the committee was created.

(f) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution.

6. The sum of twenty thousand dollars ($20,000) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Senate for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from the said contingent fund and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

Senate Resolution No. 201, as Amended

Relative to the creation of the Senate Interim Committee on Narcotics

WHEREAS, The problem of unlawful use and distribution of narcotics, for many years of concern to the Legislature, continues to rank high among the great social evils of our day, notwithstanding the bulk of the present laws on the subject, increased public interest, and widespread education on the subject; and

WHEREAS, Particularly, narcotic addicts continue to be numerous, and these addicts, seeking to obtain the means to satisfy their craving, resort to crime (and it has been estimated that they commit as many as 50 percent of the crimes against property in some metropolitan areas), and often themselves become peddlers to obtain funds for their needs, intentionally enslaving others, including young people, to the narcotic habit in order to have customers for their pernicious goods; and
